

Management's Discussion and Analysis

For the six months ended September 30, 2020

NULEGACY GOLD CORPORATION

MANAGEMENT'S DISCUSSION AND ANALYSIS

FOR THE SIX MONTHS ENDED SEPTEMBER 30, 2020

GENERAL

The purpose of this Management Discussion and Analysis (“**MD&A**”) is to explain management’s point of view regarding the past performance and future outlook of NuLegacy Gold Corporation (“**NuLegacy**”). This report also provides information to improve the reader’s understanding of the financial statements and related notes as well as important trends and risks affecting NuLegacy’s financial performance, and should therefore be read in conjunction with NuLegacy’s annual audited consolidated financial statements and notes for the year ended March 31, 2020 (the “**Financial Statements**”).

All information contained in this MD&A is current as of November 26, 2020 unless otherwise stated.

All financial information in this MD&A has been prepared in accordance with International Financial Reporting Standards (“**IFRS**”) and all dollar amounts are expressed in Canadian dollars unless otherwise indicated.

Additional information on NuLegacy is available on SEDAR at www.sedar.com and at NuLegacy’s website, www.nulegacygold.com.

OVERVIEW

NuLegacy is a Nevada-focused exploration company with exploration properties in Eureka County, Nevada, in close proximity to several multi-million ounce producing gold mines. NuLegacy’s highly prospective Rift Anticline drill target (seven sq. km within the 108 sq. km Red Hill property) has uniquely favorable Carlin-system geology located within Nevada’s Cortez gold complex adjacent to three of Barrick Gold’s most profitable multi-billion-dollar, multi-million-ounce Tier 1 Carlin-type gold deposits¹.

With NuLegacy’s first class management and exploration teams’ track record of discovering and developing world class [gold mines](#), the Rift Anticline represents an opportunity to add the fourth high-grade “elephant sized” Carlin-style gold deposit in the Cortez cluster.

With a well-funded treasury and a major deep drilling program underway, management looks forward to realizing on the significant value of its enterprise during 2021-22.

NuLegacy is listed on the TSX Venture Exchange under the symbol “NUG” and on the OTCQB under the symbol NULGF.

STRATEGY

Management’s objective is to discover significant multi-million ounce Carlin-type gold deposits within the state of Nevada. Nevada is the sixth largest gold producing ‘nation’ in the world and contains one of the largest gold endowments globally with favorably oxidized low-cost heap-leachable mineralization. NuLegacy’s Red Hill property is situated in the well-established and prolific Cortez gold trend of Nevada.

Management of NuLegacy is committed to maximizing its exploration dollars through detailed technical analysis, focusing on Carlin-style gold targets and resource discovery. With effective and efficient management of its exploration dollars and programs, management aims to deliver superior long-term returns to shareholders.

¹ The existence of gold resources and reserves on properties adjacent to or in close proximity with the Red Hill property is not necessarily indicative of the mineralization on Red Hill. There are currently no known NI 43-101 compliant resources or reserves on the Red Hill property.

NULEGACY GOLD CORPORATION
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE SIX MONTHS ENDED SEPTEMBER 30, 2020

KEY HIGHLIGHTS

Red Hill property:

- NuLegacy received final approval from the U.S. Bureau of Land Management of a modified 'Avocado' Plan of Operations (PoO) environmental permit. With this permit approval, the planned phase one exploration drill program of the highly prospective Rift Anticline target has commenced.

Share capital:

- The Company has successfully raised over \$12 million in two private placements over the last 12 months and is well funded to carry out its planned exploration activities in the Rift Anticline:
 - In October 2019, the Company completed a marketed private placement of 100,000,000 units (the "Units") at a price of \$0.075 per unit for aggregate gross proceeds of \$7,500,000. Each Unit consisted of one common share and one-half of one common share purchase warrant (each full warrant, a "Warrant"). Each Warrant entitles the holder to acquire one common share of the Company at an exercise price of \$0.12 for a period of 36 months following the closing.
 - In May 2020, the Company completed a non-brokered private placement of 75,000,000 units (the "Units") at a price of \$0.075 per unit for aggregate gross proceeds of \$5,625,000. Each Unit consists of one common share and one-half of one common share purchase warrant (each full warrant, a "Warrant"). Each Warrant entitles the holder to acquire one common share of the Company at an exercise price of \$0.125 for a period of 24 months, subject to acceleration, following the closing.

OVERALL PERFORMANCE

Net loss for the six months ended September 30, 2020 was \$1,661,120 compared to a net loss of \$1,285,702 in the comparative period ended September 30, 2019. The higher net loss experienced in the current year is largely the result of higher foreign exchange loss of \$430,678 in the current period as compared to \$26,126 in the prior comparative period.

Comprehensive loss in the six months ended September 30, 2020 was \$1,667,531 compared to a comprehensive loss of \$1,228,312 in the prior comparative period.

NuLegacy had a net increase in cash during the six months ended September 30, 2020 of \$2,848,613 whereas in the comparative period ended September 30, 2019, NuLegacy experienced a net decrease in cash of \$1,220,525. The Company raised gross proceeds of \$5,625,000 in equity financings during the six months ended September 30, 2020. There were no financings in the six months ended September 30, 2019. Cash spent on exploration activities was \$1,597,471 for the six months ended September 30, 2020 as compared to \$811,877 in the comparative year. For a more detailed description of NuLegacy's exploration expenditures, interest in its exploration and evaluation assets and the terms and conditions of the underlying agreements, please refer to the "Summary of Exploration Activities" section.

NULEGACY GOLD CORPORATION
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE SIX MONTHS ENDED SEPTEMBER 30, 2020

SUMMARY OF EXPLORATION ACTIVITIES

For the six months ended September 30, 2020, NuLegacy incurred a total of \$1,726,704 in deferred exploration costs compared to \$841,750 for the corresponding period ended September 30, 2019.

The following is a breakdown of the material components of NuLegacy's deferred exploration and development costs, on a property by property basis, for the six months ended September 30, 2020 and 2019:

	Iceberg Property	Wilson Property	Coal Canyon	Total
Six months ended September 30, 2020				
Drilling	\$ 442,472	\$ -	\$ -	\$ 442,472
Geological consulting & salaries	603,360	-	-	603,360
Geophysics	261,243	-	-	261,243
Miscellaneous	61,649	-	-	61,649
Property maintenance	193,973	114,451	15,208	323,632
Travel and vehicle	34,348	-	-	34,348
Total	\$ 1,597,045	\$ 114,451	\$ 15,208	\$ 1,726,704

Six months ended September 30, 2019				
Assays	\$ 2,974	\$ -	\$ -	\$ 2,974
Drilling	91,898	-	-	91,898
Geological consulting & salaries	278,850	22,956	-	301,806
Geophysics	49,168	-	-	49,168
Miscellaneous	42,395	-	-	42,395
Property maintenance	190,190	112,127	14,898	317,215
Travel	36,294	-	-	36,294
Total	\$ 691,769	\$ 135,083	\$ 14,898	\$ 841,750

The total cumulative acquisition and deferred exploration costs to September 30, 2020 summarized as follows:

	Iceberg Property	Wilson Property	Coal Canyon	Total
Acquisition costs	\$ 4,176,153	\$ 360,950	\$ -	\$ 4,537,103
Assays	1,628,472	37,336	-	1,665,808
Drilling	11,194,967	285,274	-	11,480,241
Geophysics	874,304	-	-	874,304
Geological consulting & salaries	7,152,085	232,692	-	7,384,777

Accumulated expenditures since inception	\$ 28,092,390	\$ 1,990,388	\$ 51,486	\$ 30,134,264

NULEGACY GOLD CORPORATION
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE SIX MONTHS ENDED SEPTEMBER 30, 2020

Mineral properties:

NuLegacy's Cortez-trend Property, located in Eureka County, Nevada, encompasses 1,364 unpatented lode mining claims covering approximately 108 square km and is comprised of two separate properties and one agreement as follows:

- Red Hill Property – consists of 818 unpatented lode mining claims comprising approximately 63 square km; and
- Idaho Resources (Wilson) Agreement – consists of 482 unpatented lode mining claims comprising approximately 40 square km; and
- Coal Canyon Property – consists of 64 unpatented lode mining claims comprising 5 square km.

Red Hill Agreement:

The property is located directly between Nevada Gold Mines LLC's Cortez Hills operation and Goldrush project to the north, and McEwen Mining Inc.'s Tonkin Springs/Gold Bar gold operations to the south. Nevada Gold Mines' Cortez mining operations have reported reserves in excess of 11.1 million ounces of gold, plus additional indicated and inferred resources. The Goldrush property, which contains 10.2 million ounces of gold¹ in all categories, is located adjacent to NuLegacy's Red Hill Project.

The Red Hill property is geologically similar to that which hosts the existing three Carlin-type gold deposits in the Cortez Trend, which have their largest and best resources at depths between 500 and 1,200 feet. The geology of the Goldrush property represents a close analogue to that found at NuLegacy's Red Hill property.

NuLegacy's re-interpretation of both the geology and historic drilling results was the basis for the supposition that the Red Hill property contained geological formations favorable for hosting Carlin-type gold deposits. The Iceberg gold deposit is primarily in Devonian carbonate rocks, the same units that host the large gold deposits in the Cortez Trend, of which the Iceberg Property is a part. Drilling to the west of Iceberg encountered gold intercepts not directly related to the Iceberg gold deposit and are part of the newly defined Rift Anticline target. Geochemical/geological anomalies in other places indicating that additional areas of Carlin-type gold mineralization occur on the Red Hill property. Many of these have yet to be drilled.

In October 2015 NuLegacy completed the earn-in to a 70% interest of the property by expending USD \$5 million over 5 years of exploration expenses, as defined in the Barrick option agreement. In December 2015 NuLegacy was notified by Barrick that it did not intend to exercise the earn-back provision of the agreement.

In March 2016, NuLegacy and Barrick completed an exchange agreement which resulted in the issuance of 32,000,000 common shares of NuLegacy in exchange for Barrick's 30% working interest in the Red Hill property and granted Barrick a 2% net profits interest royalty from commercial production on the property. As a result of this transaction, NuLegacy increased its working interest in the Red Hill property from 70% to 100%.

Idaho Resources (Wilson) Agreement:

On October 18, 2010 (further amended February 23, 2012), NuLegacy entered into a mining lease with Idaho Resources Corporation ("Idaho") for an initial 10 years, in which Idaho granted to NuLegacy exclusive possession and control to explore, develop, mine and operate on the Wilson property, which consists of 482 unpatented lode mining claims, adjoining the Red Hill property to the east.

On November 7, 2012 (further amended in January 2016), NuLegacy entered into a restated mining lease whereby future requirements for exploration expenditures were eliminated. In order to maintain the Lease, NuLegacy must make the following annual advance royalty payments:

- \$75,000 of annual payments and issue 200,000 shares prior to execution of the restated mining lease (paid and issued);

NULEGACY GOLD CORPORATION
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE SIX MONTHS ENDED SEPTEMBER 30, 2020

- \$25,000 payment and issue 100,000 shares on January 1, 2014 and January 1, 2015 (paid and issued); and
- \$12,500 payment on January 1st, April 1st, July 1st and October 1st of all succeeding years.

On June 29, 2017 the agreement was further amended to release NuLegacy from the July 1 and October 1, 2017 payments, and all future quarterly \$12,500 payments. The amendment, in lieu of these payments, requires that NuLegacy commits to \$150,000 yearly (starting in 2018) expenditures on, or for the benefit of, the property, and on January 1 of each year, starting in 2018, a \$15,000 cash payment. Any expenditures in excess of the yearly requirements can be carried forward to subsequent years.

After the initial term of 10 years, the mining lease will continue in full force and effect provided that NuLegacy continues to maintain the property in good standing and make the requisite annual cash payments to Idaho. Upon commencement of commercial production, the annual cash payments will convert to an overriding royalty of 3% of the applicable royalty based on all gold, silver and other ores/metals produced from the property. Through this agreement NuLegacy has a 100% working interest in the property subject to the payments and property maintenance terms.

Coal Canyon Property:

Sixty-four lode mining claims (5.1 km²) contiguous to the western margin of the Vio area were staked September 1, 2018. The claims are prospective for both Carlin-type sediment hosted gold deposits, and for epithermal gold-silver deposits.

2020 Exploration

Additional CSAMT and gravity surveys were conducted to the west of Iceberg to add detail to previous wider spaced surveys. A total of 23.8 line-kilometers of east-west CSAMT lines parallel to, and between, and extensions of existing lines, and 13.3 line-kilometers northeast-southwest orientated at an oblique angle to the existing lines were surveyed to better define the length and structural continuity of the Rift Anticline target. Also, the survey point density of the gravity stations over the Rift Anticline was increased from 200 meter spacing to 100 meter spacing to better outline gravity lows that may represent areas of decalcification of carbonates, which would be favorable areas for gold deposition. The results of these surveys, and information from the 2019 drilling are being incorporated into an enhanced geological model for the Rift Anticline area. This new model has been used to identify drill targets. The new geological model has been used to plan the next round of drilling for an anticipated 16-hole program.

The preliminary structural model for the Rift Anticline targeting utilized the results of recent drill holes (as summarized above, and detailed in the February 8, 2020 news release), and the data from the numerous CSAMT and gravity surveys focusing on known mineralized controlling structures (i.e. Long Fault). This identified three high-priority targets in the northern half of the Rift Anticline and three additional targets extending to the south along the anticline trend covering approximately 4.5 km (and open on both ends) with an indicated width varying from 700 to 1,450 meters. Detailed drill plans are developed for the initial 16 deep hole drill program to comprehensively test the targets, commencing with the more developed northern targets.

Drilling on the Rift Anticline target commenced in mid-October 2020. Hole RA20-01 was drilled as part of the initial five-hole test of the target. This hole is part of a three-hole fence extending ~500 meters across the Rift Anticline; with two additional holes targeted approximately 600 meters south forming a second fence across the north northwest-oriented strike of the Rift Anticline, testing the northernmost one-fifth of the Rift Anticline.

These five holes will reconnoitre the most northerly portion of the currently projected 5 sq km Rift Anticline target, which is still open on both ends. Once width, average thickness and grade are established some preliminary estimates of the volume of the favourable gold bearing Wenban Unit 5 can be made.

A total of 4.6 km of road and 5 drill pads are being completed to accommodate the five holes planned for the fall program in the north of the west limb of the Rift Anticline. The balance of the initial 16-hole scoping drill program

NULEGACY GOLD CORPORATION
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE SIX MONTHS ENDED SEPTEMBER 30, 2020

designed to test the remainder of the northern quarter of the Rift Anticline is scheduled for completion in the spring of 2021.

Final targeting for the remainder of the 42-hole reconnaissance drilling program designed to test the whole of the Rift Anticline is to be completed over the winter 2021.

Assays will be reported as received and processed with the QA/QC protocols administrated by NuLegacy's Qualified Person, Dr. Roger Steininger CPG.

Permitting

In September 2020, NuLegacy received final approval from the U.S. Bureau of Land Management of a modified 'Avocado' Plan of Operations (PoO) environmental permit. With this permit approval, the planned phase one exploration drill program of the highly prospective Rift Anticline target has commenced.

In June 2020 NuLegacy successfully acquired 44 preapproved Greater Sage-Grouse conservation credits in order to fully satisfy NuLegacy's compensatory mitigation obligations for its modified Plan of Operations over the Red Hill projected.

Quality Control and Quality Assurance

The scientific and technical content and interpretation contained in this MD&A have been reviewed, verified and approved by Roger Steininger, NuLegacy's director and CPG-7417, a Qualified Person as defined by NI 43-101, *Standards of Disclosure for Mineral Projects*.

SUMMARY OF QUARTERLY RESULTS

The following selected quarterly financial information is derived from the condensed interim consolidated financial statements of NuLegacy:

	Sep 30, 2020	Jun 30, 2020	Mar 31, 2020	Dec 31, 2019
Net income (loss)	\$ (781,132)	\$ (879,988)	\$ 113,431	\$ (641,831)
Comprehensive income (loss)	(781,132)	(886,399)	94,993	(669,630)
Gain (loss) per share - basic and diluted	(0.00)	(0.00)	0.00	(0.00)
Comprehensive gain (loss) per share - basic and diluted	\$ (0.00)	\$ (0.00)	\$ 0.00	\$ (0.00)

	Sep 30, 2019	Jun 30, 2019	Mar 31, 2019	Dec 31, 2018
Net loss	\$ (710,755)	\$ (574,947)	\$ (951,023)	\$ (552,231)
Comprehensive loss	(653,365)	(574,947)	(975,900)	(577,138)
Loss per share - basic and diluted	(0.00)	(0.00)	0.00	0.00
Comprehensive loss per share - basic and diluted	\$ (0.00)	\$ (0.00)	\$ (0.00)	\$ (0.00)

The variations in the losses from quarter to quarter are mainly due to the level of administrative expenses incurred by NuLegacy and are fairly consistent from quarter to quarter with the exception of:

- The quarter ended March 31, 2020 had a positive net and comprehensive loss due to a foreign exchange gain of \$488,426 during the period.

The difference between the net loss and the comprehensive loss is due to the change in the fair market value of NuLegacy's investments.

NULEGACY GOLD CORPORATION
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE SIX MONTHS ENDED SEPTEMBER 30, 2020

SELECTED QUARTERLY INFORMATION

The following financial data is derived from the condensed interim consolidated financial statements of the Company for the three and six months ended September 30, 2020 and 2019:

	For the three months ended September 30,		For the six months ended September 30,	
	2020	2019	2020	2019
Revenue	\$ -	\$ -	\$ -	\$ -
Operating expenses	(594,081)	(727,396)	(1,230,442)	(1,252,612)
Net loss	(781,132)	(710,755)	(1,661,120)	(1,285,702)
Comprehensive loss	(781,132)	(653,365)	(1,667,531)	(1,228,312)
Net loss per share-basic and diluted	(0.00)	(0.00)	(0.00)	(0.00)
Comprehensive loss per share-basic and diluted	(0.00)	(0.00)	(0.00)	(0.00)
Working capital	8,086,152	916,061	8,086,152	916,061
Exploration and evaluation assets	30,131,264	26,739,181	30,134,264	26,739,181
Total assets	39,196,305	28,968,735	39,196,305	28,968,735
Total liabilities	\$ 201,891	\$ 767,905	\$ 201,891	\$ 767,905

To date, all of NuLegacy's projects are at the exploration stage and NuLegacy has not generated any revenues other than interest income.

At September 30, 2020, NuLegacy had not yet achieved profitable operations and has an accumulated deficit of \$26,401,725 (September 30, 2019 - \$24,212,205) since inception. For the six months ended September 30, 2020, losses resulted in a net loss per share (basic and diluted) of \$0.00 (2019 - \$0.00) and comprehensive loss per share (basic and diluted) of \$0.00 (2019 - \$0.00).

RESULTS OF OPERATIONS

The table below details the major changes in operating expenses for the three months ended September 30, 2020 as compared to the corresponding three months ended September 30, 2019.

Expense	Amount of increase / decrease from comparative year	Explanation for Change
Consulting	Increase of \$40,387	Increase due mainly to addition of two consultants during the period.
Directors fees	Increase of \$15,000	No directors fees were paid in the prior period
Management fees	Decrease of \$101,700	The prior period included a severance paid to the former CEO.
Travel & accommodation	Decrease of \$34,435	There is decreased travel activity in the current period due to travel restrictions between Canada and the USA.

The table below details the major changes in operating expenses for the six months ended September 30, 2020 as compared to the corresponding six months ended September 30, 2019.

Expense	Amount of increase / decrease from comparative year	Explanation for Change
---------	---	------------------------

NULEGACY GOLD CORPORATION
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE SIX MONTHS ENDED SEPTEMBER 30, 2020

Consulting	Increase of \$72,224	Increase due mainly to addition of two consultants during the period.
Directors fees	Increase of \$30,000	No directors fees were paid in the prior period
Management fees	Decrease of \$101,160	The prior period included a severance paid to the former CEO.
Share based payments	Increase of \$45,161	Increase was associated with increase in the number of stock options vesting during the current period.

LIQUIDITY

NuLegacy does not generate cash from operations and finances its exploration activities by raising capital from equity markets from time to time.

As at September 30, 2020, NuLegacy's liquidity and capital resources are as follows:

	September 30, 2020	March 31, 2020
Cash and cash equivalents	\$ 8,100,153	\$ 5,251,540
Receivables	12,096	18,753
Prepaid expenses	87,736	71,226
Available for sale financial assets	88,058	98,895
Total current assets	8,288,043	5,440,414
Trade and other payables	201,891	153,238
Working capital	\$ 8,086,152	\$ 5,287,176

NuLegacy's operations consist primarily of the acquisition, maintenance and exploration of exploration and evaluation assets, including actively seeking joint venture partners to assist with exploration funding. NuLegacy's financial success will be dependent on the extent to which it can discover new mineral deposits.

As at September 30, 2020, NuLegacy had cash and cash equivalents of \$8,100,153 (March 31, 2020 - \$5,251,540). As at September 30, 2020, NuLegacy had working capital of \$8,086,152 (March 31, 2020 - \$5,287,176).

As at September 30, 2020, the fair value of the Global Resources Investment Ltd. ("GRIT") common shares was \$88,058 (March 31, 2020 - \$98,895). NuLegacy intends to liquidate the GRIT common shares and use the net proceeds from the future sale for general corporate purposes.

NuLegacy's continuation as a going concern is dependent upon successful results from its exploration and evaluation activities and its ability to attain profitable operations and generate funds there from and/or raise equity capital or borrowings sufficient to meet current and future obligations. Management believes that the current working capital surplus is sufficient to maintain current operations as budgeted for the next 12 months. See "Risks and Uncertainties".

COMMITMENTS

The following commitments are (were) pursuant to the Wilson Property:

Wilson property:

Pursuant to the amended mining lease with Idaho Resources Corp., NuLegacy must make one annual payment of US\$15,000 due on January 1 of each year commencing on January 1, 2018. The amended lease includes a minimum exploration or development expenditure requirement of US\$150,000 each calendar year commencing in 2018 and in all succeeding calendar years until commercial production commences.

Refer to the Summary of Exploration Activities for further details on NuLegacy's commitments.

NULEGACY GOLD CORPORATION
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE SIX MONTHS ENDED SEPTEMBER 30, 2020

NuLegacy is also required to pay the annual United States Bureau of Land Management assessment fees, state and county filing and recording expenses, property taxes, advance minimum royalty and underlying lease payments, as applicable, associated with NuLegacy's mineral properties in order to maintain the Iceberg and Wilson properties in good standing. Such costs will form part of NuLegacy's exploration expenditures.

Notwithstanding the foregoing, if, at any time, NuLegacy's board of directors deems continued use of exploration expenditures on its mineral properties to be unwarranted based on the results of exploration up to that time, NuLegacy may suspend or discontinue exploration on the property and apply any remaining funds towards the exploration of one of NuLegacy's other properties, to the acquisition and exploration of new properties or, if required, the general working capital of NuLegacy.

Except as aforesaid, NuLegacy does not have any material commitments for capital expenditures, there are no known trends or expected fluctuations in NuLegacy's capital resources and has no sources of financing that have been arranged but not yet used.

Contractual Obligations:

On April 1, 2020, the Company entered into a storage space rental agreement that expires March 31, 2022. The agreement requires monthly rental payments of US\$2,076.

As at September 30, 2020, NuLegacy had no long-term debt and no agreements with respect to borrowings entered into.

OFF BALANCE SHEET ARRANGEMENTS

NuLegacy has no off-balance sheet arrangements.

NULEGACY GOLD CORPORATION
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE SIX MONTHS ENDED SEPTEMBER 30, 2020

RELATED PARTY TRANSACTIONS

During the six months ended September 30, 2020, NuLegacy entered into the following transactions with related parties:

- a. Paid or incurred management fees of \$120,000 (September 30, 2019 - \$135,000) and office costs of \$7,200 (September 30, 2019 - \$7,200) to a company controlled by Albert Matter, the CEO and director of NuLegacy. As at September 30, 2020, \$nil (March 31, 2020 - \$770) was included in trade and other payables for reimbursement of expenses.
- b. Paid or incurred management fees of \$nil (2019 - \$90,000) and office costs of \$nil (September 30, 2019 - \$1,000) to a company controlled by James Anderson, former CEO and director of NuLegacy.
- c. Paid or incurred consulting fees of \$10,203 (September 30, 2019 - \$6,010) capitalized to exploration and evaluation assets and office cost of \$3,123 (September 30, 2019 - \$2,070) to Roger Steininger, director and former CGO of NuLegacy.
- d. Paid or incurred management fees of \$92,440 (September 30, 2019 - \$87,600) and office costs of \$1,760 (September 30, 2019 - \$6,600) paid to Danny Lee, CFO of NuLegacy.
- e. Paid or incurred professional fees of \$44,896 (September 30, 2019 - \$38,791) and share issuance costs of \$36,966 (September 30, 2019 - \$9,539) to a company controlled by Gregory Chu, Corporate Secretary of NuLegacy. As at September 30, 2020, \$1,700 (March 31, 2020 - \$8,996) was included in trade and other payables for accrued professional fees.
- f. Paid or incurred consulting fees of \$45,000 (September 30, 2019 - \$nil) to Alex Davidson, Executive Chairman and director of NuLegacy.
- g. Paid or incurred consulting fees of \$49,585 (September 30, 2019 - \$80,263) to Edward Cope, a director of NuLegacy. As at September 30, 2020, \$nil (March 31, 2020 - \$9,785) was included in trade and other payables for accrued professional fees.
- h. Paid or incurred directors' fees of \$15,000 (September 30, 2019 - \$nil) to Alan R. Hill, an independent director of NuLegacy.
- i. Paid or incurred directors' fees of \$15,000 (September 30, 2019 - \$nil) to John Budreski, an independent director of NuLegacy.

Share issuance costs	36,966	9,539
Share based payments	45,647	144,856
	\$ 486,820	\$ 606,859

ADDITIONAL DISCLOSURE FOR VENTURE ISSUERS WITHOUT SIGNIFICANT REVENUES

There can be no assurance that financing, whether debt or equity, will always be available to NuLegacy in the amount required at any particular time or for any particular period or, if available, that it can be obtained on terms satisfactory to NuLegacy. See "Risks and Uncertainties" below.

RISKS AND UNCERTAINTIES

NuLegacy is in the mineral exploration and development business and as such is exposed to a number of risks and uncertainties that are not uncommon to other companies in the same business. Some of the possible risks include the following:

- a) The industry is capital intensive and subject to fluctuations in metal prices, market sentiment, foreign exchange and interest rates.
- b) The only source of future funds for further exploration programs, or if such exploration programs are successful for the development of economic ore bodies and commencement of commercial production thereon, which are presently available are the sale of equity capital or the offering by NuLegacy of an interest in its properties to be earned by another party carrying out further exploration or development. Management was successful in accessing the equity markets during the year, but there is no assurance that such sources will be available on acceptable terms in the future.
- c) Any future equity financings for the purpose of raising additional capital may result in substantial dilution to the holdings of existing shareholders.
- d) NuLegacy must comply with environmental regulations governing air and water quality and land disturbance and provide for mine reclamation and closure costs.
- e) The continued operations require various licenses and permits from various governmental authorities. There is no assurance that NuLegacy will be successful in obtaining the necessary licenses and permits to continue its exploration and development activities in the future or, if granted, that the licenses and permits will remain in force as granted.
- f) There is no certainty that the properties which NuLegacy has capitalized as assets on its balance sheet will be realized at the amounts recorded. These amounts should not be taken to reflect realizable value.
- g) While management believes that control over bank accounts and assets is adequate, it is also aware that internal control weaknesses were identified in respect of a lack of segregation of duties, and a high risk

NULEGACY GOLD CORPORATION
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE SIX MONTHS ENDED SEPTEMBER 30, 2020

of management override of controls and procedures. It is management's opinion that these weaknesses in internal controls over financial reporting are inherently related to the small size of the issuer.

- h) There is no certainty that the financial assets (which include the GRIT common shares) will be realized at the amounts recorded. These amounts should not be taken to reflect realizable value as at the date of this report.

Should one or more of these risks and uncertainties materialize, or should underlying assumptions prove incorrect, then actual results may vary materially from those described on any forward-looking statements. NuLegacy has not completed a feasibility study on any of its deposits to determine if it hosts a mineral resource that can be economically developed and profitably mined.

CRITICAL ACCOUNTING JUDGMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of the Financial Statements in accordance with IFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities and contingent liabilities, income and expenses. Estimates and assumptions are continuously evaluated and are based on management's experience and other factors, including expectation of future events that are believed to be reasonable under the circumstances. Actual results may differ from these estimates.

Information about critical accounting judgments, estimates and assumptions are summarized in Note 2 of the Financial Statements.

CHANGES IN ACCOUNTING POLICIES

The Company adopted IFRS 9 on April 1, 2019 in accordance with the transitional provisions of the standard, with the exception of the hedging provisions.

Standards issued but not yet effective up to the date of issuance of the Financial Statements are listed below. This listing is of standards and interpretations issued, which NuLegacy reasonably expects to be applicable at a future date. NuLegacy intends to adopt those standards when they become effective and does not expect the impact of such changes on the financial statements to be material.

IFRS 16 Leases

This standard is effective for annual periods beginning on or after January 1, 2019, and permits early adoption, provided IFRS 15, has been applied, or is applied at the same date as IFRS 16. IFRS 16 requires lessees to recognize assets and liabilities for most leases.

FINANCIAL AND OTHER INSTRUMENTS

NuLegacy has classified its financial instruments as follows:

Cash and cash equivalents	Amortized cost
Investments	Fair value through other comprehensive income
Trade and other payables	Amortized cost

For some of NuLegacy's financial assets and liabilities, including cash and cash equivalents, receivables, trade and other payables, the carrying amounts approximate their fair values due to the relatively short periods to maturity of the instruments.

The classification and fair values of the financial instruments at September 30, 2020 and 2019 are summarized in Note 11 of the Financial Statements.

NULEGACY GOLD CORPORATION
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE SIX MONTHS ENDED SEPTEMBER 30, 2020

Foreign Currency Risk

Foreign currency risk is the risk that the future cash flows or fair value of the financial instruments that are denominated in a currency that is not NuLegacy's functional currency will fluctuate due to the change in foreign exchange rate.

The functional currency of NuLegacy and its wholly owned subsidiary is the Canadian dollar. While the parent is Canadian and its capital is raised in Canadian dollars, NuLegacy is conducting business activities in the United States. As such, it is subject to risk due to fluctuations in the exchange rates for the Canadian and United States dollar. All of the operations in the United States are in US dollars.

As at September 30, 2020, the Company has cash and cash equivalents denominated in US dollars of \$5,412,852 (March 31, 2020 - \$3,490,096), deposits in US dollars of \$449,131 (March 31, 2020 - \$449,131) and trade and other payables in US dollars of \$110,221 (March 31, 2020 - \$37,747). Each 1% change in the Canadian dollar versus the US dollar would result in a gain/loss of approximately USD \$57,518 (March 31, 2020 - USD \$39,015).

In addition, the Company holds an investment that is denominated in British Pounds (£). As such, it is subject to fluctuations in the exchange rates for the Canadian dollar and British Pounds. As at September 30, 2020, the Company has an available for sale investment denominated in British Pounds of £52,369 (March 31, 2020 - £56,177). Each 1% change in the Canadian dollar versus the British Pound will result in a gain/loss of approximately £524 (March 31, 2020 - £562).

Interest Rate Risk

Interest rate risk is the risk of financial loss to NuLegacy if market rates of interest were to change adversely. NuLegacy's exposure to interest rate risk is not material.

Credit Risk

Credit risk is the risk of financial loss to NuLegacy if a customer or counterparty to a financial instrument fails to meet its contractual obligations. NuLegacy manages credit risk by placing cash with major Canadian financial institutions. NuLegacy's receivables primarily consist of sales tax recoverable due from the Federal Government of Canada. Management believes that credit risk related to these amounts is nominal.

Liquidity Risk

Liquidity risk is the risk that NuLegacy will not be able to meet its financial obligations as they fall due. NuLegacy's approach to liquidity risk is to ensure that it always has sufficient cash and credit facilities to meet its obligations when due, under both normal and stressed conditions, without incurring unacceptable losses or damage to NuLegacy's reputation. Management typically forecasts cash flows for a period of six to twelve months to identify financing requirements. These requirements are then addressed primarily through access to capital markets. All of the financial liabilities mature within one year.

Other Price Risk

Other price risk is the risk that changes in market prices including commodity or equity prices will have an effect on future cash flows associated with financial instruments.

The equity price risk associated with the Company's current available for sale investment primarily relates to the change in the market prices of the investments in the portfolio. As at September 30, 2020, the Company owned 1,904,320 (March 31, 2020 - 1,904,320) GRIT common shares with each common share valued at £0.03 or \$0.05 (March 31, 2020 - £0.03 or \$0.05). Each £0.01 change in the value per common share will result in a gain/loss of approximately £19,043 or \$32,021 (March 31, 2020 - £19,043 or \$33,523).

NULEGACY GOLD CORPORATION
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE SIX MONTHS ENDED SEPTEMBER 30, 2020

CAPITAL MANAGEMENT DISCLOSURES

NuLegacy's objectives when managing capital are to:

- (a) Provide an adequate return to shareholders;
- (b) Provide adequate and efficient funding for operations;
- (c) Continue the development and exploration of its mineral properties;
- (d) Support any expansion plans;
- (e) Allow flexibility to investment in other mineral revenues; and
- (f) Maintain a capital structure which optimizes the cost of capital at acceptable risk.
- (g) In the management of capital, NuLegacy includes all accounts included in shareholders' equity.
- (h) As at September 30, 2020, NuLegacy had no bank indebtedness.

NuLegacy is not subject to any externally imposed capital requirements and there has been no change with respect to the overall capital risk management strategy during the fiscal period.

OUTSTANDING SHARE DATA, OPTIONS AND WARRANTS

	As at September 30, 2020	As at November 26, 2020
Common shares	487,040,170	488,502,453
Common shares – fully diluted**	616,850,280	614,975,280
Stock options – outstanding	37,975,000	35,625,000
Stock options – exercisable	27,048,333	25,448,333
Share purchase warrants	91,835,110	90,847,827

***The fully diluted number of common shares above represents the total number of shares that would be outstanding if all possible sources of conversion (all stock options outstanding and share purchase warrants) were exercised.*

Subsequent to the period ended September 30, 2020, 925,000 stock options expiring on November 16, 2020 had their expiry date extended to April 30, 2021 and has been approved by the TSX-Venture Exchange.

DIVIDEND REPORT AND POLICY

NuLegacy has not paid any dividends to date and intends to retain its future earnings, if any, for use in its business and does not expect to pay dividends on its shares in the foreseeable future.

INTERNAL CONTROLS OVER FINANCIAL REPORTING PROCEDURES

The management of NuLegacy is responsible for establishing and maintaining appropriate information systems, procedures and controls to ensure that information used internally and disclosed externally is complete, reliable and timely. Management is also responsible for establishing adequate internal controls over financial reporting to provide sufficient knowledge to support the representations made in this MD&A and NuLegacy's consolidated financial statements for the six months ended September 30, 2020.

In contrast to the certificate required for non-venture issuers under National Instrument 52-109 Certification of Disclosure in Issuers' Annual and Interim Filings ("NI 52-109"), the venture issuer basic certificate does not include representations relating to the establishment and maintenance of disclosure controls and procedures ("DC&P") and internal control over financial reporting ("ICFR"), as defined in NI 52-109. Investors should be aware that inherent limitations on the ability of certifying officers of a venture issuer to design and implement on a cost

NULEGACY GOLD CORPORATION
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE SIX MONTHS ENDED SEPTEMBER 30, 2020

effective basis DC&P and ICFR as defined in NI 52-109 may result in additional risks to the quality, reliability, transparency, and timeliness of interim and annual filings and other reports provided under securities legislation.

MANAGEMENT'S RESPONSIBILITY FOR CONSOLIDATED FINANCIAL STATEMENTS

The information provided in this report, including the Financial Statements, is the responsibility of management. In the preparation of these Financial Statements, estimates are sometimes necessary to make a determination of future values for certain assets or liabilities. Management believes such estimates have been based on careful judgments and have been properly reflected in the accompanying Financial Statements.

Management maintains a system of internal controls to provide reasonable assurance that NuLegacy's assets are safeguarded and to facilitate the preparation of relevant and timely information.

FORWARD LOOKING STATEMENTS

Certain sections of this MD&A may contain forward-looking statements.

All statements, other than statements of historical fact, made by NuLegacy that address activities, events or developments that expects or anticipates will or may occur in the future are forward-looking statements, including, but not limited to, statements preceded by, followed by or that include words such as "may", "will", "would", "could", "should", "believes", "estimates", "projects", "potential", "expects", "plans", "intends", "anticipates", "targeted", "continues", "forecasts", "designed", "goal", or the negative of those words or other similar or comparable words.

Forward-looking statements contained or incorporated by reference in this MD&A may relate to the future financial condition, results of operations, plans, objectives, performance or business developments including, among other things, exploration and work programs, drilling plans and timing of drilling, plans for development and facilities construction and timing, method of funding and completion thereof, the performance characteristics of exploration and evaluation assets, drilling, results of various projects, the existence of mineral resources or reserves and the timing of development thereof, projections of market prices and costs, supply and demand for gold and other precious metals, expectations regarding the ability to raise capital and to acquire reserves through acquisitions and/or development, treatment under governmental regulatory regimes and tax laws, and capital expenditure programs and the timing and method of financing thereof. Forward-looking statements are necessarily based upon a number of estimates and assumptions that, while considered reasonable as of the date of such statements, are inherently subject to significant business, economic and competitive uncertainties and contingencies. The estimates and assumptions of NuLegacy contained or incorporated by reference in this MD&A, which may prove to be incorrect, include, but are not limited to, the various assumptions set forth herein or as otherwise expressly incorporated herein by reference as well as: (1) there being no significant disruptions affecting operations, whether due to labour disruptions, supply disruptions, power disruptions, damage to equipment, adverse weather conditions or otherwise; (2) permitting, access, exploration, expansion and acquisitions at our projects (including, without limitation, land acquisitions for and permitting of exploration plans) being consistent with NuLegacy's current expectations; (3) the viability, permitting, access, exploration and development of the Red Hill project including, but not limited to, the establishment of resources being consistent with the NuLegacy's current expectations; (4) political developments in the State of Nevada including, without limitation, the implementation of new Nevada state mining tax and related regulations being consistent with NuLegacy's current expectations; (5) the exchange rate between the Canadian dollar and the U.S. dollar being approximately consistent with current levels; (6) certain price assumptions for gold and silver; (7) prices for and availability of equipment, labor, natural gas, fuel oil, electricity, water and other key supplies remaining consistent with current levels; (8) the results of the exploration program on the Red Hill project being consistent with expectations; (9) labor and materials costs increasing on a basis consistent with NuLegacy's current expectations; (10) the availability and timing of additional financing being consistent with NuLegacy's current expectations. Known and unknown factors could cause actual results to differ materially from those projected in the forward-looking statements. Such factors include, but are not limited to: fluctuations in the currency markets; fluctuations in the spot and forward price of gold or certain other commodities (such as diesel fuel and electricity); changes in national and local government legislation, taxation, controls, regulations and political or economic developments in Canada, the United States, or other countries in which NuLegacy may carry on business in the future; business opportunities that may be presented

NULEGACY GOLD CORPORATION
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE SIX MONTHS ENDED SEPTEMBER 30, 2020

to, or pursued by, us; our ability to successfully integrate acquisitions; operating or technical difficulties in connection with exploration or development activities; employee relations; the speculative nature of gold exploration and development, including the risks of obtaining necessary licenses and permits; competition for, among other things, capital, acquisitions of reserves, undeveloped lands and skilled personnel, incorrect assessments of the value of acquisitions, geological, technical, drilling and processing problems, fluctuations in foreign exchange or interest rates and stock market volatility, changes in income tax laws or changes in tax laws and incentive programs relating to the mineral resource industry; and contests over title to properties, particularly title to undeveloped properties. In addition, there are risks and hazards associated with the business of gold exploration, development and mining, including environmental hazards, industrial accidents, unusual or unexpected formations, pressures, cave-ins, flooding and gold bullion losses (and the risk of inadequate insurance, or the inability to obtain insurance, to cover these risks). Many of these uncertainties and contingencies can affect actual results and could cause actual results to differ materially from those expressed or implied in any forward-looking statements made by, or on behalf of, NuLegacy. There can be no assurance that forward-looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Forward-looking statements are provided for the purpose of providing information about management's expectations and plans relating to the future. All of the forward-looking statements made or incorporated by reference in this MD&A are qualified by these cautionary statements and those made in our other filings with applicable securities regulators in Canada. These factors are not intended to represent a complete list of the factors that could affect NuLegacy and readers should not place undue reliance on forward-looking statements in this MD&A. NuLegacy disclaims any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, or to explain any material difference between subsequent actual events and such forward-looking statements, except to the extent required by applicable law.
