Testing the Rift Anticline as a Goldrush Analogue

~ This is it Folks ~

To NuLegacy shareholders/stakeholders:

Good afternoon Folks,

[Click to view today's news release](#)

This is it folks...the culmination of ten years of work...the start of drilling the Rift Anticline in the Cortez trend to test for it being an analogue of the adjacent on trend multi-million-ounce Goldrush deposit¹.

The Goldrush is one of seven giant multi-million-ounce Carlin-style gold deposits discovered over the last fifty years in the two parallel gold trends of Nevada, with four in Carlin and three **so far** in the Cortez trend.

Good luck to us all, cheers,

Albert
