Good day folks, we got the last of the money in from the 100-million-unit PP at 12.5 cents...and we are off and running. No more time for more platitudes and thank yous...we got about a 21-day head start on recruiting some good drillers and rigs...no use hanging about jawing and depleting that advantage.

You all will hear from me again in early Feb, when we have processed the gold assays from RA2020-3 and 4...as well as the attendant down-hole Televiwer data (structure), the geo-chemistry (pathfinder suite) and spectral analysis (clay temperature vectoring) that puts all the big picture holes (remember 3, 6 and 15 hundred meters apart) into context.

Next stop thirty cents, cheers,

Albert
