NuLegacy Completes Earn-in to 70% working interest in Iceberg Gold Deposit

~ Barrick to retain 30% working Interest ~
~ NuLegacy Preps for 2016 Exploration Program ~

Dear friends, family and NuLegacy shareholders/stakeholders,

Hi Folks,

[+ to view today's new release.](#)

We are delighted to have Barrick confirm that NuLegacy has completed its earn-in to 70% of the Iceberg gold deposit, and that it has elected to retain its 30% minority working interest (as detailed in the linked news release). NuLegacy owning a 70% interest provides several new opportunities which we will explore in the New Year.

The 2015's drilling returned the best results yet (links to the highlights are provided in the news release) and we are busy processing the results in preparation for the 2016 exploration program. We expect to have a definitive report on the 2015 program and an outline of 2016 program ready for presentation by mid-February 2016.

Meanwhile, we wish you a very Merry Christmas and a Happy and Prosperous New Year.

As well we have posted an updated video on the Iceberg project showing it in the context of Barrick's huge gold mining operations in the Cortez trend at:

www.youtube.com/watch?v=vsCDz66CBgA&feature=youtu.be

Thank you and all the best,

Albert

Albert J. Matter

Chairman, Director

NuLegacy Gold Corporation | NUG:TSXV | NULGF:OTCQX
