## TARGETING THE AVOCADO-SERENA GAP ~ DRILLING COMMENCES ON RED HILL ~

### To NuLegacy shareholders/stakeholders:

Hi Folks,

[Click to view today's new release](#)

Just want to draw your attention to the fact that drilling has begun on our Red Hill Property.

With all the work/analysis completed over the winter we are expecting the initial drilling will deliver the high-grade results or provide the information needed to vector in on the high-grade low angle structures (as illustrated [here](#)) that make these Carlin-type deposits of the Cortez (and Carlin) trends such elephants.

The analysis suggests that we may have several such targets in the two km Avocado-Serena gap shown [here](#).

All the best to you and cheers,

*Albert*

Albert J. Matter
