## GAME CHANGING ASSAY RESULTS

~ 8.7 meters of 16.9 grams/ton,  
within 22.1 meters of 6.59 grams/ton gold ~

---

### To NuLegacy shareholders/stakeholders:

Hi Folks,

[Click to view today's news release](#)

Serena drill hole SR18-02c, with ½ ounce/ton over 28.5 feet, has the earmarks of a “game changing” event; this fall’s drilling will tell the tale!

The enrollment of Charles Weakly in January of this year...from Barrick Gold...resulted in a new interpretation of our geology.

That led our geo-team to relogging all previously drilled holes...and that led to improved drill hole targeting...which has led to improving drill results...and **confirmation** of the new interpretation...and that is the ‘discovery process’.

The start of this fall’s drilling program is just ahead; we are anticipating continued improvement of results.

Cheers,

*Albert*
